

Pre-Production Checklist

- Prepare basic session information prior to scheduled production day (a file upload link will be provided in advance). This includes:
 - Song Title
 - Tempo (a MIDI tempo map if there are tempo changes present)
 - Key
 - Instrument tunings
 - Lyrics
 - MIDI
 - Reference Tracks (Maximum of 3)
 - Multitracks and/or stems (24 bit 48 kHz WAV files are ideal)
- If you want samples present in your music:
 - Make sure they are legally cleared for use.
 - Supply a WAV file of the sample(s) with a minimum quality of 16 bit 44.1 kHz sample rate.
